Awesome level select. Interesting gameplay that changes with levels and cool jumpscars.

What else do you need? nothing!!!!. Classic. Runs amazingly! I sorta wish they had re-did the Multiplayer though.... I bought this game to play as the persians but they are not playable facton. Awesome little game, Shame it hasn't got more attention because it really deserves it.. its a meh visual novel. it has decent sprites but reuses backgrounds from of the other titles from this company. the story is decent but predictable and feels a lil like the choices dont really matter. you could have made it a kinetic novel with 2 paths instead and not really change anything. its a read that its short ,fast, and priced right and has a uncensored patch if that what your looking for id say sure go ahead.. its exactly like dead rising 2

same lines

same cutscenes

same story

you just play as frank west

and one new area. This game is absolute RUBBISH. I wouldn't reccomend it to anyone. If you want a good fishing game, Buy Euro Fishing, thru Steam.

Episode IV is a very fitting conclusion to the Space Pilgrim saga, and just as much fun as the previous entries. This should only be played after episodes I-III have been completed, as you will need to be familiar with the story that has taken shape in order to enjoy its conclusion. Make no mistake, these games are short and relatively simple, but they provided just the right level of engagement for multi-tasking while I played, and I had a blast with the series. I would love to experience a continuation of Gail's story someday, but if this is the last time we see the crew of the Quicksilver, it is a very fitting end.. I have mixed feelings on this game, the music, visuals, and story are beautiful. However, the puzzles themselves fall quite short. The best section of the game has some light and mirror puzzles similar to Talos Principle, while the worst sections are literally, wander around and pick up 4 of the same object. For what its worth, I played through the entire story and beat the game (it took me about 5 hours, but I'd imagine it can be done in half that) but did not 100% all the achievements.

At the end of the day, if you are looking more for an interactive story V walking simulator you'll like this a lot. If you are hoping for a high quality puzzle game you are much better off with The Witness, Talos Principle, Quern, or even Archiaca.

I found this game while searching for games similar to The Witness and while they both have a great atomsphere and a beautiful world to explore, the difference in the actual game play quality is night and day.

This game also seems unrefined in a lot of ways. One of the "tips" that the game shows on loading is a warning to save often because the auto save is sporadic and unreliable. There is a mechanic where you use up your "light energy" but as far as I can tell no puzzle in the entire game requires actually using your energy efficiently or optimally, they just force you to occasionally spend time looking for a light refill bottle for no reason. The whole health/damage system seems oddly tacked on, and the main "completionist" section of the game with optional puzzles and content is the middle third of the game which you cannot go back to later on. Along the way you collect items and objects but as far as I could tell there is no way to actually view your inventory. The "map" is clunky and largely useless.

A lot of the puzzles seem inconsistent or unrefined in terms of giving you feedback on what you are supposed to do as you go. Idk, there is a lot to like here and as a work of art, much of the game is beautiful, but as a puzzle game, ignoring the asethetic, I found it short, too easy, a bit dull and uninspired.. It's a great effort from the devas to make a solid puzzle game with the twist of actually aiming to die.

Although some of the levels can be completed in ways I imagine were not concieved, it's still an enjoyable game to tease your brain with.

I recorded a video playing the game if you would like an idea of how the game plays. You can see it here:

[https://www.youtube.com/watch?v=sIqRR\\_UyRhg](https://www.youtube.com/watch?v=sIqRR_UyRhg). For the first time in any Total War game since I was a kid I actually lost in a campaign. I don't know how, as I somewhat ignored diplomacy my first game, but suddenly I was at war with every god damn faction on the map. I tried to survive as long as I could, but at the end I ahd to concede to Liu Bei and his 3 doomstacks

[Finally a challenging Total War game.](#)

[P.S: The game kept spamming me to lower the difficulty, low-key telling me "you suck". Damn, that's savage.. be careful with the horse, it got me close to be motion sick lol, i know, we all should be careful with VR motion , but still, the horse wtf.. The best Total War clone.. Brilliant. I don't see any MMO around with the same features. Reminds me "Super Mario 64", where you have to find stars and choose the levels from the main zone.](#)

[The level editor is powerful but not so easy. The developer is awesome as listens the community. This game is a MUST at the current price, which is really honest.](#)

[More gameplay and challenges #4: https://www.youtube.com/watch?v=AvvHaCJaKio](https://www.youtube.com/watch?v=AvvHaCJaKio). Awesome DLC. The maps are cool, the perks are cool, and the new enemies are cool. The two new weapons added in this DLC, the Nailgun and Circle Saw, are pretty cool, too. The Nailgun is good, but not great. The Circle Saw is amazing if used correctly (one of the reviews below mine states the Circle Saw is "useless" and "silly," which, in my opinion, is completely false). The Circle Saw's secondary fire pierces armor really well, making quick work of Lums like the Heavy, Floater, Soaker, etc.. The graphics are nothing to look at but thankfully the gameplay makes up for it!
