If you are looking for a program that will help you update your PDF files to the latest standards, then Fiatecuscan is the one for you. The latest version includes enhancements and improvements to make sure that your documents and figures stay up-to-date and compatible with the newest devices. Failure to do this could lead to issues when trying to open or view your files which can be frustrating and time consuming. Fiatecuscan is a free program made by Fiatec, an Italian company specializing in translating engineering documentation from Italian into English (and vice versa). The company also offers other technical services such as translation and proofreading. The program is compatible with Windows operating systems including Windows 7, XP, Vista, and Windows Server 2008/2008 R2. The program is compatible with Adobe Acrobat Reader 5.0 or later, IBM Lotus Notes 8.5 or later, Microsoft Word 2002 or later and others including a version for Mac OS X which works on Mac OS X 10.4 and Mac OS X 10.5 without a problem.
